

September 30, 2005

Dear Stakeholder:

Thank you for your continued participation in our process to develop a rule revision dealing with geologic and hydrologic site suitability of landfills in the state of Missouri. You should have recently received notification that we have scheduled the next meeting of the Solid Waste Rule Revision Workgroup for **October 12, 2005 from 12:30-4:00 p.m. in the DGLS Annex Conference Center at 111 Fairgrounds Road in Rolla**. Please note that this is in Rolla and not in Jefferson City. We have included attachments (*Rolla Map* and *DGLS Parking and Conference Rooms*) that should help you find your way to the DGLS facilities and to the Division Conference Center. We recommend parking in the South Buehler Lot (our main parking lot) but if you can find a space in any of the other lots, you are welcome to park there as well.

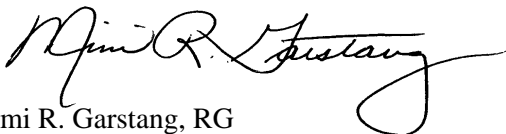

We are grateful for the input we have received from everyone involved thus far. Please keep up the good work! In an effort to prepare for the next meeting and hear from each of you, we are asking that you consider the following attachments.

1. **"Agenda"** which is a brief agenda for the Rolla meeting.
2. **"Stakeholder Final Survey"** which is a presentation of the final results of the responses received to Parts 1 and 2 of the Stakeholders Survey.
3. **"Summary"** which is a brief summary of the last workgroup meeting.
4. **"Zoll Letter"** which is a letter sent by Sherry Zoll in conjunction with the Showme organization in lieu of completing a survey.
5. **"Draft Rule"** which is a rough draft of a rule for the group to consider and discuss at the 10-12-05 meeting.
6. **"Acronyms and Definitions"** is a list of Acronyms and their definitions that relate to the rulemaking process and the handout from the 8-30-05 meeting.

As you can see from the agenda and other attachments, the next meeting will be getting into the actual details of the type of geologic and hydrologic conditions that make landfill sites suitable or unsuitable. We have provided draft language for everyone to review. However we intend to have a very open discussion on each item when we meet in October. Please feel free to give us a call or send an E-mail if you have questions or need clarification on any information. Thank you again for your assistance.

Sincerely,

DIVISION OF GEOLOGY AND LAND SURVEY

Mimi R. Garstang, RG
